Report on Internal Control Over Financial Reporting

The Association's principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association's Consolidated Financial Statements. For purposes of this report, "internal control over financial reporting" is defined as a process designed by, or under the supervision of the Association's principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association's assets that could have a material effect on its Consolidated Financial Statements.

The Association's management has completed an assessment of the effectiveness of internal control over financial reporting as of March 31, 2010. In making the assessment, management used the framework in *Internal Control — Integrated Framework*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the "COSO" criteria.

Based on the assessment performed, the Association concluded that as of March 31, 2010, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association determined that there were no material weaknesses in the internal control over financial reporting as of March 31, 2010

Management's Discussion and Analysis of Financial Condition and Results of Operations

(dollars in thousands)

The following commentary reviews the financial condition and results of operations of Farm Credit of Northwest Florida, ACA (Association) for the period ending March 31, 2010. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2009 Annual Report of the Association.

LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities including forestry, row crops, livestock, peanuts, horticulture, dairies and rural homes. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat reduces the level of dependency on any single commodity.

The gross loan volume of the Association as of March 31, 2010, was \$426,809, a decrease of \$14,787, as compared to \$441,590 at December 31, 2009. Net loans outstanding (gross loans net of the allowance for loan losses) at March 31, 2010, were \$418,085 as compared to \$432,872 at December 31, 2009. Net loans accounted for 92.80 percent of total assets at March 31, 2010, as compared to 92.21 percent of total assets at December 31, 2009.

There is an inherent risk in the extension of any type of credit. Portfolio credit quality has deteriorated due to poor credit administration and a downturn in the overall economic environment. Nonaccrual loans were \$32,780, a decrease of \$1,723 from \$34,503 at 12/31/09. The primary decrease resulted from the conversion of nonaccrual loans to other property owned. Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio based on current and expected future conditions. The allowance for loan losses at March 31, 2010 was \$8,724, the same as the allowance at December 31, 2009. Management's analysis of the allowance yielded a lower allowance than currently maintained. Due to the remaining uncertainty in the general economic environment management believes that maintaining the higher

level of allowance is prudent at this time. The allowance for loan loss of \$8,724 at March 31, 2010 was considered by management to be adequate to cover probable losses. The allowance for loan losses of \$8,724 represents 2.04% of the loan balances as of March 31, 2010.

Other property owned was \$15,083 as of March 31, 2010 as compared to \$15,464 at 12/31/09. This decrease of \$381 was due to sales of \$2,766 and acquisitions of \$2,385.

Amounts due from AgFirst Farm Credit Bank decreased to \$977 as of March 31, 2010 as compared to \$3,811 as of December 31, 2009. These amounts represent patronage due from AgFirst. The reduction is primarily due to the fact that the amount due at March 31, 2010 was for one quarter and the amount due at December 31, 2009 was for four quarters.

RESULTS OF OPERATIONS

For the three months ending March 31, 2010

Net income for the three months ending March 31, 2010, totaled \$1,664, as compared to net income of \$1,277 for the same period in 2009, an increase in net income of \$387. The provision for loan losses for the three months ending March 31, 2010 was \$378 as compared to \$1065 compared to the period ending March 31, 2009, a decrease of \$687. Components of the increase in net income are discussed further in the following four paragraphs.

For the three months ending March 31, 2010, interest income on decreased by \$1,704 or 23.43 percent compared to the same period ending March 31, 2009. For the three months ending March 31, 2010 interest expense decreased by \$1,172 or 25.43 percent, compared to the period ending March 31, 2009. Other interest expense decreased by \$6. These decreases resulted in a decrease in net interest income of \$526, compared to the period ending March 31, 2009. The changes in interest income, interest expense and net interest income were the result of interest rate reductions, and a decrease in loan volume.

The provision for loan losses for the three months ending March 31, 2010 was \$378 as compared to \$1065 compared to the period ending March 31, 2009, a decrease of \$687.

Noninterest income for the three months ending March 31, 2010 totaled \$1,351, as compared to \$1,110 for the same period of 2009, an increase of \$241. This increase was primarily due to a refund from the Insurance Fund of \$492, a decrease in the equity in earnings of other Farm Credit institutions of \$52 and losses on other property owned of \$192.

Noninterest expense for the three months ending March 31, 2010 totaled \$1,442, as compared to \$1,427 for the same period of 2009, an increase of \$15. This increase was due to an increase in salaries and benefits of \$116, an decrease in Insurance Fund Premiums of \$111, an increase in occupancy and equipment of \$2 and a increase in other operating expenses of \$8.

FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with AgFirst Farm Credit Bank (the Bank) through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at March 31, 2010 was \$374,138 as compared to \$393,791 at December 31, 2009.

CAPITAL RESOURCES

Total members' equity at March 31, 2010 increased to \$72,547 from the December 31, 2009 total of \$70,918. The increase is primarily attributed to net income of \$1,664 for the three months ending March 31, 2010.

Total capital stock and participation certificates were \$1,151 on March 31, 2010, compared to \$1,152 on December 31, 2009. This decrease of \$1 is attributed to capital stock and participation certificates issuances of \$4 and retirements of \$5.

Farm Credit Administration (FCA) regulations require all Farm Credit institutions to maintain minimum permanent capital, total surplus and core surplus ratios. These ratios are calculated by dividing the Association's permanent capital, total surplus and core surplus as defined in FCA regulations, by a risk-adjusted asset base. As of March 31, 2010 the Association's total surplus ratio and core surplus ratio were 13.90 percent and 13.30 percent, respectively, and the permanent capital ratio was 14.16percent. All three ratios were well above the minimum regulatory ratios of 7.00 percent for permanent capital and total surplus ratios and 3.50 percent for the core surplus ratio.

NOTE: Shareholder investment in the Association could be affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst's annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 378, or writing Stephen Gilbert, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, www.agfirst.com. Copies of the Association's annual and quarterly reports are also available upon request free of charge by calling 850-526-4910 ext. 103, or writing Bruce C. Harrison, Chief Financial Officer, Farm Credit of Northwest Florida, ACA, P.O. Box 7000, Marianna, FL 32447, or accessing the website, www.farmcredit-fl.com. The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except that no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

Notes to the Consolidated Financial Statements

(dollars in thousands, except as noted)

(unaudited)

NOTE 1 – ORGANIZATION, SIGNIFICANT ACCOUNTING POLICIES, AND RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

The accompanying financial statements include the accounts of Farm Credit of Northwest Florida, ACA (the Association). A description of the organization and operations of the Association, the significant accounting policies followed, and the financial condition and results of operations as of and for the year ended December 31, 2009, are contained in the 2009 Annual Report to Shareholders. These unaudited first quarter 2010 consolidated financial statements should be read in conjunction with the 2009 Annual Report to Shareholders.

The accompanying consolidated financial statements contain all adjustments necessary for a fair presentation of the interim financial condition and results of operations and conform with generally accepted accounting principles (GAAP) and prevailing practices within the banking industry. The results for the three months ended March 31, 2010, are not necessarily indicative of the results to be expected for the year ending December 31, 2010.

Certain amounts in the prior period's consolidated financial statements may have been reclassified to conform to the current period's consolidated financial statement presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The Association maintains an allowance for loan losses in accordance with GAAP. The loan portfolio is reviewed quarterly to determine the adequacy of the allowance for losses. As of March 31, 2010, the allowance for losses is adequate in management's opinion to provide for possible losses on existing loans.

In addition to the recently issued accounting pronouncements discussed in the 2009 Annual Report to Shareholders, in June 2009, the Financial Accounting Standards Board (FASB) issued guidance "Accounting for Transfers of Financial Assets," which amended previous guidance by improving the relevance, representational faithfulness, and comparability of the information that a reporting entity provides in its financial statements about a transfer of financial assets; the effects of a transfer on its financial position, financial performance, and cash flows; and a transferor's continuing involvement, if any, in transferred financial assets.

This guidance was effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application was prohibited. This guidance must be applied to transfers occurring on or after the effective date. Additionally, on and after the effective date, the concept of a qualifying special purpose entity is no longer relevant for accounting purposes. Therefore, formerly qualifying special-purpose entities (as defined under previous accounting guidance) should be evaluated for consolidation by reporting entities on and after the effective date in accordance with the applicable consolidation guidance. If the evaluation on the effective date results in consolidation, the reporting entity should apply the transition guidance that requires consolidation. The Association evaluated the impact of adoption on its loan participation agreements to ensure that participations would meet the requirements for sales treatment. The impact of adoption on January 1, 2010 was immaterial to the Association's financial condition and results of operations.

In June 2009, the FASB also issued guidance, to improve financial reporting for those enterprises involved with variable interest entities, which amends previous guidance by requiring an enterprise to perform an analysis to determine whether the enterprise's variable interest or interests give it a controlling financial interest in a variable interest entity.

Additionally, an enterprise is required to assess whether it has an implicit financial responsibility to ensure that a variable interest entity operates as designed when determining whether it has the power to direct the activities of the variable interest entity that most significantly impact the entity's economic performance.

This guidance was effective as of the beginning of each reporting entity's first annual reporting period that begins after November 15, 2009, for interim periods within that first annual reporting period and for interim and annual reporting periods thereafter. Earlier application was prohibited. The Association does not have any variable interest or controlling interest in a variable entity. Therefore, there was no impact of adoption of the guidance for the Association.

In January 2010, the FASB issued guidance "Fair Value Measurements and Disclosures," which is to improve disclosures about fair value measurement by increasing transparency in financial reporting. The changes will provide a greater level of disaggregated information and more detail

disclosures of valuation techniques and inputs to fair value measurement. The new disclosures and clarification of existing disclosures were effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances and settlements in the rollforward of activity in Level 3 fair value measurements. Those disclosures are effective for fiscal years beginning after December 15, 2010, and for interim periods within those fiscal years. The adoption of this guidance had no impact on the Association's financial condition and results of operations but resulted in additional disclosures (see Note 5).

NOTE 2 – ALLOWANCE FOR LOAN LOSSES AND IMPAIRED LOANS

An analysis of the allowance for loan losses follows:

	For the three months ended March 31,	
	2010	2009
Balance at beginning of period	\$ 8,724	\$ 3,294
Provision for (reversal of) loan losses	378	1,065
Charge-offs	(466)	(1,019)
Recoveries	88	380
Balance at end of period	<u>\$ 8,724</u>	<u>\$ 3,720</u>

The following table presents information concerning impaired loans as of March 31,

	2010	2009
Impaired loans with related allowance	\$14,360	\$18,177
Impaired loans with no related allowance	19,940	25,005
Total impaired loans	<u>34,300</u>	<u>43,182</u>
Allowance on impaired loans	<u>\$ 2,335</u>	<u>\$ 2,213</u>

The following table summarizes impaired loan information for the three months ended March 31,

	2010	2009
Average impaired loans	\$ 35,324	\$ 27,695
Interest income recognized on impaired loans	44	117

NOTE 3 – EMPLOYEE BENEFIT PLANS

The following is a table of retirement and other postretirement benefit expenses for the Association:

	For the three months ended March 31,	
	2010	2009
Pension	\$ 153	\$ 156
401(k)	26	22
Other postretirement benefits	25	22
Total	<u>\$ 204</u>	<u>\$ 200</u>

The following is a table of retirement and other postretirement benefit contributions for the Association:

	Actual YTD Through 3/31/10	Projected Contributions For Remainder of 2010	Projected Total Contributions 2010
Pension	\$ -	\$ 520	\$ 520
Other postretirement benefits	32	43	75
Total	<u>\$ 32</u>	<u>\$ 563</u>	<u>\$ 595</u>

Contributions in the above table include allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the respective Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2010.

Further details regarding employee benefit plans are contained in the 2009 Annual Report to Shareholders.

NOTE 4 – NOTES PAYABLE TO AGFIRST FARM CREDIT BANK

The Association's indebtedness to the Bank represents borrowings by the Association primarily to fund its loan portfolio. This indebtedness is collateralized by a pledge of substantially all of the Association's assets and the terms of the revolving line of credit are governed by the General Financing Agreement (GFA). The GFA defines Association performance criteria for borrowing from the Bank, which for 2009 included borrowing base margins, earnings and capital covenants. The Association failed to meet its borrowing base margins and earnings covenants at December 31, 2009. The defaults allow the Bank, in conjunction with the FCA, to accelerate repayment of all indebtedness. The Bank approved a temporary waiver of the defaults at December 31, 2009. During the first quarter of 2010, following review of a plan submitted by the Association to achieve compliance with the covenants, the Bank approved an extension of the temporary waiver of the defaults and allowed the Association to operate under a special credit arrangement pursuant to its GFA through December 31, 2010. At March 31, 2010, the Association was in compliance with the borrowing base margins covenant of the GFA. The Association has continued to perform its obligations under the special credit arrangement.

NOTE 5 – FAIR VALUE MEASUREMENT

Effective January 1, 2008, the Association adopted FASB guidance on fair value measurements. This guidance defines fair value, establishes a framework for measuring fair value

and expands the Association's fair value disclosures for certain assets and liabilities measured at fair value on a recurring and non-recurring basis. These assets and liabilities consist primarily of impaired loans and other property owned.

This guidance defines fair value as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

This guidance establishes a fair value hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement.

The three levels of inputs and the classification of the Association's financial instruments within the fair value hierarchy are as follows:

Level 1

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. The Association has no Level 1 assets or liabilities measured at fair value on a recurring basis at March 31, 2010

Level 2

Level 2 inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability. The Association has no Level 2 assets or liabilities measured at fair value on a recurring basis at March 31, 2010.

Level 3

Level 3 inputs to the valuation methodology are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

Level 3 assets at March 31, 2010 include impaired loans which represent the fair value of certain loans that were evaluated for impairment under FASB guidance. The fair value was based upon the underlying collateral since these were collateral-dependent loans. The fair value measurement process uses independent appraisals and other market-based information, but in many cases it also requires significant input based on management's knowledge of and judgment about current market conditions, specific issues relating to the collateral and other matters. As a result, these fair value measurements fall within Level 3 of the hierarchy. When the value of the collateral, less estimated costs to sell, is less than the principle balance of the loan, a specific reserve is established.

Other property owned is classified as a Level 3 asset at March 31, 2010. The fair value for other property owned is based upon the collateral value. Costs to sell represent transaction costs and are not included as a component of the fair value of other property owned.

Assets and Liabilities Measured at Fair Value on a Non-recurring Basis

Assets and liabilities measured at fair value on a non-recurring basis at March 31, 2010 and December 31, 2009 for each of the fair value hierarchy values are summarized below:

March 31, 2010					
	Level 1	Level 2	Level 3	Total Fair Value	YTD Total Gains (Losses)
Assets:					
Impaired Loans	\$ -	\$ -	\$ 10,751	\$ 10,751	\$ 517
Other property owned	\$ -	\$ -	\$ 2,803	\$ 2,803	\$ (87)
December 31, 2009					
	Level 1	Level 2	Level 3	Total Fair Value	YTD Total Gains (Losses)
Assets:					
Impaired Loans	\$ -	\$ -	\$ 14,962	\$ 14,962	\$ (7,871)
Other property owned	\$ -	\$ -	\$ 15,532	\$ 15,532	\$ (952)

NOTE 6 — DISCLOSURES ABOUT FAIR VALUE OF FINANCIAL INSTRUMENTS

The following table presents the carrying amounts and fair values of the Association's financial instruments at March 31, 2010 and December 31, 2009.

Quoted market prices are generally not available for certain System financial instruments, as described below. Accordingly fair values are based on judgments regarding

anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

The estimated fair values of the Association's financial instruments are as follows:

	March 31, 2010		December 31, 2009	
	Carrying Amount	Estimated Fair Value	Carrying Amount	Estimated Fair Value
Financial assets:				
Cash	\$ 2	\$ 2	\$ -	\$ -
Loans, net of allowance	\$ 418,085	\$ 423,328	\$ 432,872	\$ 441,426
Financial liabilities:				
Notes payable to AgFirst Farm Credit Bank	\$ 374,138	\$ 379,203	\$ 393,791	\$ 399,705

A description of the methods and assumptions used to estimate the fair value of each class of the Association's financial instruments for which it is practicable to estimate that value follows:

- A. **Cash:** The carrying value is primarily a reasonable estimate of fair value.
- B. **Loans:** Because no active market exists for the Association's loans, fair value is estimated by discounting the expected future cash flows using the Association's current interest rates at which similar loans would be made to borrowers with similar credit risk. Discount rates are based on the Bank's loan rates as well as management estimates.

For purposes of determining fair value of accruing loans, the loan portfolio is segregated into pools of loans with homogeneous characteristics based upon repricing and credit risk. Expected future cash flows and interest rates reflecting appropriate credit risk are separately determined for each individual pool.

Fair value of loans in a nonaccrual status is estimated to be the carrying amount of the loan less specific reserves.

The carrying value of accrued interest approximates its fair value.

- C. **Investment in AgFirst Farm Credit Bank and Other Farm Credit Institutions:** Estimating the fair value of the Association's investment in the Bank and Other Farm Credit Institutions is not practicable because the stock is not traded. The net investment is a requirement of borrowing from the Bank and is carried at cost plus allocated equities in the accompanying Consolidated Balance Sheets. The Association owns 2.39 percent of the issued stock of the Bank as of March 31, 2010 net of any reciprocal investment. As of that date, the Bank's assets totaled \$30.1 billion and shareholders' equity totaled \$1.7 billion. The Bank's earnings were \$117 million during the first three months of 2010.

In addition, the Association has an investment of \$413 related to other Farm Credit institutions.

- D. **Notes Payable to AgFirst Farm Credit Bank:** The notes payable are segregated into pricing pools according to the types and terms of the loans (or other assets) which they fund. Fair value of the notes payable is estimated by discounting the anticipated cash flows of each pricing pool using the current rate that would be charged for additional borrowings. For purposes of this estimate it is assumed the cash flow on the notes is equal to the principal payments on the Association's loan receivables plus accrued interest on the notes payable. This assumption implies that earnings on the Association's interest margin are used to fund operating expenses and capital expenditures.
- E. **Commitments to Extend Credit:** The estimated market value of off-balance-sheet commitments is minimal since the committed rate approximates current rates offered for commitments with similar rate and maturity characteristics and since the related credit risk is not significant.

NOTE 7 – REGULATORY ENFORCEMENT MATTERS

During the first quarter of 2010, the Association entered into a written agreement with the Farm Credit Administration. The written agreement requires the Association to take corrective actions with respect to certain areas of its operations, including board operations, strategic planning and staffing, internal controls, asset quality, loan portfolio management, portfolio risk, capital, earnings and liquidity.

NOTE 8 – SUBSEQUENT EVENTS

The Association has evaluated subsequent events and has determined there are none requiring disclosure through May 7, 2010, which is the date the financial statements were issued.
